May I, once again, apologise for the late change of course brought about by circumstances beyond the control of the organisers. Despite having permission, in writing, at the beginning of March, we were informed only the day before the event that we would have to use the upper park. The change, quite justified on grounds of safety for the competitors, did cause some organisational and course problems. The course was, in fact, slightly shorter than the one used previously, the original being about  $5\frac{1}{4}$  miles. In view of the comments we received we shall be measuring the course accurately in time for next year's race which will again be confined to the Upper Park. We look forward to seeing you all again!

Another strong showing by Liverpool Harriers A.C. Well run Harry, but you'll have to watch Martin Crewe who travelled down from Bingley. On his own midden you may find your roles reversed.

Well done Alf (is it Alf?, you didn't give your full name on your entry!), you prevented what would have turned out to be a clean sweep by Liverpool H. Not that it mattered particularly as there were just enough prizes for every finisher - a fact which Master Crennell, no doubt, would be happy to point out! Notwithstanding the prizes, there is nothing like winning the race as well. Again well done.

Finally, as mentioned overleaf, it is more than probable that we shall be confined to using the same course next year. Any comments, constructive or critical, will be welcomed by any member of Wirral A.C. We aim to please!
